

iCaSH - the integrated contraception and sexual health service

Advance notice: From 1st October

If you would like routine screening for sexual health and have no symptoms please order a free kit online.

This service is no longer provided at the clinic.

If you are 16 and over, and have no symptoms of an STI, order your FREE and confidential postal test kit from:

<https://expresstest.icash.nhs.uk>

or scan the QR code

**If you are unable to order a kit online, please contact us on
0300 300 3030**

Symptoms of an STI may include:

- **New discharge**
- **Pain when you pee**
- **Testicular pain**
- **Pain during sex**
- **Abnormal bleeding**
- **New lower abdominal pain (in women)**
